Fax: +49 6251 66111 · Email: [info@archenoah.de](mailto:info@archenoah.de)

## How You Can Help

### Donations

Support our rescued animals with a one-time or regular donation via:

- **Bank transfer**
- **Direct debit**
- **PayPal:** <https://www.paypal.com/paypalme/ArcheNoahTeneriffa>

Linktr.ee

Your donation enables us to provide fast and effective help, both in the short and long term, exactly where it is needed most. Whether it is food, medical care, medication, vaccinations or neutering – only with your support can we help animals in need.

And the good news: Your donation is tax-deductible (only in Germany). You will automatically receive your donation receipt at the beginning of each year for the previous year.

### Membership

Every member counts. From just € 5.00 per month, you make a valuable contribution to animal welfare on Tenerife and help secure our work on site. As a member, you also have a vote at the annual general meeting and can actively participate in shaping our work.

### Sponsorship

Our sanctuary residents are allowed to stay with us for the rest of their natural lives. Give the gift of a sponsorship or become a sponsor yourself for one of these special four-legged friends! As a sponsor, you directly support the care of the animals, as their food, medication and other needs cost us a considerable amount every month. As a thank you, you or the recipient will receive a sponsorship certificate and detailed information about your sponsored animal.

### Flight Sponsorship

Our four-legged friends are not allowed to fly to Germany unaccompanied and therefore depend on flight sponsors. We take care of the entire organisation, of course. For you, becoming a flight sponsor is simple, uncomplicated and completely free of charge. We are looking for flights all year round to all major airports in Germany.

### Food Donations

To provide the best possible care for our rescued animals, they need high-quality food. With your food donation via “feed a dog” or “feed a cat”, you actively help us feed the many hungry mouths in our shelter and sanctuary. Simply scan the QR code (Linktr.ee), click on food donation for dog or cat, and donate a daily or weekly ration of dog or cat food to our four-legged friends.

### Donations in Kind

You can find items our animals would love on our wish list at amazon.de. Whether toys, cozy blankets or cat caves – you will find everything a dog's or cat's heart desires there. Unfortunately, we are not able to accept donations in kind at our office in Bensheim. If you would like to bring donations directly to our shelter in Tenerife, please make an appointment in advance.

### Project Donations

In addition to the high costs of caring for our animals, unexpected expenses arise again and again. For example, a washing machine may break down after running almost 24/7. For such special projects, we work together with [www.betterplace.de](http://www.betterplace.de), Germany's largest donation platform. There you will always find our current Arche projects that require financial support.

### €1 Donation

Become part of our team! Through [Teaming.net](http://Teaming.net), you donate just € 1.00 per month – and still make a real difference. Because together we are many. Let's make dreams come true – together.

### Mini-Shop

In our mini online shop you will find a small selection of wonderful products that not only bring you joy, but also support our animal welfare work. With every order, you also help to make Arche Noah better known.

### Online-Shopping

Do you also shop online regularly? Then support us during your future shopping trips through the platform [Gooding.de](http://Gooding.de) – easily and at no extra cost to you. In more than 2,000 online shops, you are sure to find exactly what you are looking for.

### Volunteering

For our animal shelter in Tenerife, we are looking for dedicated volunteers who would like to actively support us in caring for and looking after our rescued animals. The minimum stay is 8 weeks and the minimum age is 25 years. We are also grateful for helping hands in Bensheim, especially at events.

### Foster Homes

We are looking for animal-loving and responsible people who would like to actively support animal welfare by offering a temporary home to a dog or cat. As a foster home, you help both emergency cases from our shelter in Tenerife and animals that have already been adopted in Germany but, for various reasons, need a new temporary place.

### Legacy / Will

If animal welfare is close to your heart, make a lasting difference and support our four-legged friends beyond your lifetime through your will. Your legacy will benefit the animals 100 percent, as we are a registered non-profit organisation and exempt from inheritance tax.

Animal Welfare Association

Arche Noah Teneriffa e.V.

Recognised by the German Animal Welfare Federation

as a non-profit organisation & particularly eligible for support

## Who We Are

We are an animal welfare association that has been committed since its foundation in 1992 to helping stray, abandoned, sick and injured dogs and cats on the Canary Island of Tenerife. We run both an animal shelter and a sanctuary there. Animals who cannot be rehomed due to physical or emotional reasons are allowed to stay with us for the rest of their natural lives.

We are financed exclusively through donations, membership fees, sponsorships and legacies. We receive no government funding. Your donation is therefore vital for our four-legged friends.

As we are officially recognised as a non-profit organisation and particularly eligible for support, your donation is tax-deductible (only in Germany). You will automatically receive your donation receipt at the beginning of each year for the previous year.

## The Situation of Animals on Tenerife

Sadly, thousands of dogs and cats on Tenerife still live under unacceptable conditions. Many are chained up, kept in dark sheds, backyards or on rooftops without sufficient food, water or protection from the weather.

Hunting dogs such as Podencos or Pointers suffer especially harsh fates. To this day, they are not even covered by Spanish animal protection law, as they are considered "working animals" for hunters and therefore receive no protection – although they desperately need it.

But of course, many other breeds, mixed-breed dogs and cats also suffer from human neglect. Sick or unwanted animals are often abandoned, killed or disposed of in other ways. If they are lucky, they eventually find their way to us.

We try to restore their dignity and give them the chance to start a healthy and better life. This is an exhausting task that often pushes us to our limits. Please help these animals – there are many ways to support us.

Vivo upon arrival at the shelter

Vivo 4 weeks later

## Adoption

Our dogs and cats are vaccinated, microchipped, neutered, and have a valid EU pet passport. They are tested for common Mediterranean diseases and, if diagnosed, are of course treated accordingly. Your future companion will therefore have the best possible conditions to stay healthy and by your side for many years.

We handle every adoption with the greatest care. After an initial conversation, we visit you at home to get to know you and your living environment. This step is very important to ensure that animal and human are truly a good match. As your future family member usually travels from Tenerife, all circumstances must be carefully considered.

If the home visit is positive for both sides, you will receive confirmation of adoption. Then all that is left for you to do is look forward to the big day, prepare everything, and come to the airport at the agreed time to welcome your new family member in person.

## How We Help

### Rescue and Medical Care

Our main goal is the rescue and medical treatment of the many stray, abandoned and injured animals on Tenerife. We nurse them back to health, care for them with dedication and give them the chance to start a new life in a better future.

### Owner Surrenders / Animals from the Municipal Shelter

If we have available capacity, we also take in animals that are surrendered by their owners. In addition, we regularly visit the island's municipal shelter to specifically look for emergency cases that can receive more intensive care with us than would be possible there.

### Sanctuary

Animals that cannot be rehomed – due to age, chronic illness, lack of adoption requests, physical limitations or extreme shyness – are allowed to stay with us for the rest of their natural lives. We do not euthanise an animal simply because it does not find a home.

### Population Control

We carry out regular neutering campaigns for street cats on the island in order to reduce the number of unwanted offspring. Whenever we have the necessary staff or budget available, these campaigns take place. We also cooperate in some cases with local residents or hotels. If puppies or kittens are brought to us, we insist that the parent animals – if available – are neutered.

### Visit Us Online:

[www.archenoah.de](http://www.archenoah.de) → →

On our website you will find our current animals available for adoption and sponsorship, as well as many further details about our work.

### Use This QR Code:
